

## News Release IDX Charger Promotion

April 2021

### Buy Two IDX batteries and get a Free 2 Channel Charger

Whilst promotional stocks are available, a VL-2X is being offered free of charge when two CUE-H90 batteries are purchased.

The CUE-H90 is physically the smallest of the four batteries making up the CUE range weighing just 610 grams. This range redefines the price point for high quality Li-ion batteries. Designed to the most stringent Japanese safety regulations they feature a cell cradle design that isolates the Li Ion cells from each other and feature a D-tap output now rated at up to 80W for powering camera accessories.

The CUE-H90 has many of the features today's video professionals demand and with a typical capacity of 90Wh, it is less than the 100Wh limit for IATA carry-on baggage restrictions.

The VL-2X is the perfect travel charger being compact and light weight. Supplied with an AC adaptor taking 100~240V 50/60Hz it offers a fan less silent operation suited to use in a hotel bedroom.

The package can be ordered using the package code PROMO.EC-H90/2X whilst stock is available.
